Report to the Shareholders

The board of directors is pleased to present the unaudited results of JFP Limited (the "company") for the twelve-month period ended March 31, 2023.

Profit and Loss

JFP Limited had a challenging first quarter but is expected to rebound in the coming quarters. Revenue declined by 31% with the company falling below projections and ending with total of 75.8M. This decline was due to delays beyond the control of JFP's production department. Two factors include changes to the design/build process and the logistics required to return to the work environment as the primary project pending finalization is located inside the local international airport. These jobs were originally forecasted to be completed in the first quarter. These delays had an impact on multiple areas of this quarters financials which will be addressed in this report. Cost of sales increased by 1% which resulted in a 45% decline in gross profit. Gross profit margin decreased from 70% to 56%.

Other income decreased by 119% resulting in a loss of 0.65M. This was mainly due to a decline in the value of equity shares held.

Administrative expenses increased by 18% which supported the larger staff complement compared to quarter 1 of last year.

Selling and distribution expenses declined by 18%. This was a result of decline in sales and hence sales-related commissions paid to external account executives.

As a result of the above factors, JFP experienced a net loss for the quarter due to the inability of revenue to fully support cost of sales and other expenses.

Balance Sheet

In terms of non-current assets, there were no purchases or disposals of fixed assets in the quarter, and non-current assets remained relatively unchanged compared to the same period last year. There was a slight increase due to the investment of funds generated from the IPO.

Inventory increased mainly due to work in progress component and the need to guard against shortages in inventory that might prevent the company from meeting customers' needs on time.

Receivables increased by 51% due to significant delays in collections in the period.

Cash and cash equivalents declined by 77% as the funds generated from the IPO last year were invested, resulting in a reduction in cash for this period.

Payables increased by 29% due to the delay in the collection of receivables.

Shareholders' equity declined by 16% compared to the same period last year due to losses made in the last two quarters.

We, the Board of Directors, express our heartfelt gratitude to our employees, customers, suppliers, shareholders, and all other stakeholders for their unwavering support and ongoing contribution in making JFP Limited a renowned name globally.
